

## SARC PREAMBLE

This is (call sign)\_\_\_\_\_.

Does anyone need to use the frequency before I call the SARC 2 meter net?

My name is \_\_\_\_\_and I am the net control for this session of the net.

This net maintains liaison with The Covington County ARES and RACES organizations and passes necessary Weather information for the National Weather service as part of the SKYWARN system. (PAUSE)

This net covers the South Alabama and North Florida areas.

This net meets weekly at 19:30 hours local on the primary frequency of 147.260 and uses a secondary frequency of 147.260 simplex as needed.

Is there any traffic at this time?(PAUSE)

This a directed net. Do not transmit until recognized by the NCS. Please pause between check-ins to avoid doubling. Any station unable to make the repeater come to 147.260 simplex and request a relay.

Are there any mobile or short time stations? (PAUSE)

Any stations wishing to check-in to the SARC 2-Meter net, Please do so now.

(Write call sign and name. Net control may decide to accept comments from stations checking in.)

Are there any additional stations wishing to check in at this time.. If so please give call sign and location.

The formal portion of this net is now closed at \_\_\_\_\_ local time.

This is (call sign ) opening the informal and swap portion of the net.

Are there any announcements or items of interest for the net?

Are there any radio, or computer related items for swap or trade? Only amateur radio related items will be accepted. No commercial items will be allowed.

Are there any queries for upgrades or test sessions?

Are there any late check ins?

I want to thank everyone who participated in the net this evening. A special thanks to those who passed traffic and helped with relays. We wish to invite you to return next week at the same time

This is (call sign) returning the frequency to normal amateur use.

**NOTE FOR NCS :  
PASS ALL NET REPORTS TO NET MANAGER BEFORE THE END OF  
THE MONTH. Thanks!**

Emergency Coordinator  
And Net Manager
